ENFJ-A

French

2nd June 2002
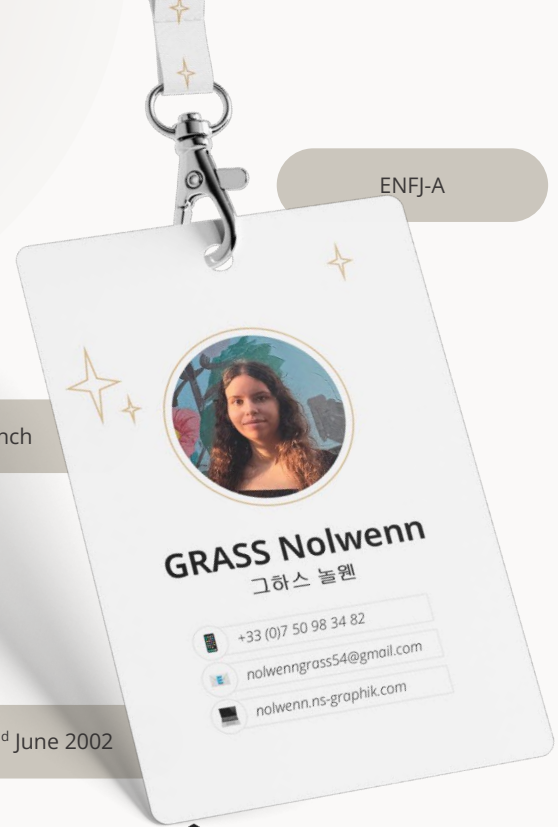

I love inventing and creating **board games** with **my twin sister Sara**, reading and illustrating **manhwas**, watching **tv shows** and solving mysteries through **escape games**. Passionate about **South Korea's culture** and **history**, I recently completed a semester as an exchange student at **Jeonbuk National University** in Jeonju, South Korea.

I'm currently looking for a **six-month end-of-study internship** in the **audiovisual field** (video editing, SNS management, design, etc.). Creative, passionate, patient, meticulous, and highly motivated, I bring a broad range of skills that allow me to adapt to different tasks. I thrive both independently and in teamwork. Always eager to learn, I'm open to new challenges—even if my profile doesn't perfectly match your expectations, I'm excited to develop new skills while contributing to your team. Let's work together! 🐨✨

EXPERIENCES 💡

2020
Graphic Design
Communication
Marketing

🇺🇸 **Vera Social Landscapes**
Designed and formatted professional documents for this US-based company

2024
Videomaking
Audio, Video & Photo Editing
Post-production
